National Spine & Pain Centers
The Business of Pain Medicine
October 15th – 17th 2021
Arlington, VA

Supported by unrestricted educational grants from Boston Scientific and Medtronic.

ACTIVITY DESCRIPTION AND STATEMENT OF NEED

It is important for the experts in the field to share the most current information and data available to assist physicians in selecting the right patients and right therapies to improve patient outcomes.

The goal of the Business of Pain Medicine CME Conference is to provide a unique and dynamic program on the most up to date, cutting edge information on therapies available to treat patients in pain. Each faculty member is a recognized leader in the field. Information and data presented will be on label and present the most recent and relevant information available with a focus on improving patient care, access to therapies, and overall outcomes. Format will include individual lectures and panel discussions.

TARGET AUDIENCE

This certified CME activity will include members of the interventional pain management community, which includes clinical providers (physicians, mid-level practitioners, fellows and nurses), administrators (CEO's, operations management, practice managers, and billing personnel) as well as industry partners.

LEARNING OBJECTIVES

Upon completion of this activity, the participant should be able to:

1. Recognize and evaluate pain, description of pain, and pain markers
2. Interpret new Federal Regulations to assist in implementing standards of care and to assist in patient and compliance
3. Discuss established and evolving concepts in interventional pain management.
4. Achieve a greater understanding of best practices and available guidelines on new techniques, agents and therapies for patients.
